

Konductor / Argus — Session Report

Mendocino Farms · **CA.0006 7th & Figueroa + CA.0046 Rolling Hills** · Session **2026-06-10** (PT) · Technician **Joey Castillo**

SESSION HOURS

1.2

REPORTS PUBLISHED

2 / 2

ARGUS

Live

WHAT WAS ACCOMPLISHED

- **Ops Services After-Action Reports completed and published — 7th & Figueroa and Rolling Hills**, every completed station documented (7 each), on the secure portal with PDF, ready to distribute.
- **Argus is live for Mendocino Farms** — your single, secure window into your in-store network and Konductor stations. Live visibility, on demand.
- **Network Wi-Fi review** across locations confirmed the Konductor devices online and flagged a couple of unnamed / duplicate entries to tidy up at the two newest installs — a clean-up list, not a blocker.
- **Elbert Nghiem invited to Argus** — secure, device-bound access. The first Mendocino Farms operator on the platform.

TIMELINE — KEY EVENTS (PT)

- 05:45** Session start.
- 05:50** Argus access portal stood up; **Elbert Nghiem invited** to Argus with secure device-bound access.
- 06:25** After-Action Reports compiled — 7th & Figueroa + Rolling Hills, 7 completed stations each.
- 06:35** Reports published to the secure Ops Services portal (gated report + PDF).

06:44 Reports finalized — install date confirmed 2026-06-09, re-published and verified live.

06:54 Session closed.
